SAFETY EQUIPMENT

RESPIRATOR/SAFETY GOGGLE COMBO

Protect your lungs and eyes from potentially harmful and toxic resin vapors.

NITRILE GLOVES

Protect your hands from resin contact. Makes for easier cleanup and handling of resin which is sticky and can cause skin irritation.

WORK SURFACE PROTECTION

SILICONE MATS

Help keep your work surface clean and safer from resin spills or drips.

RESIN TAPE

Use resin tape to protect parts of your resin crafts that you don't want resin to get to. Many resin artists use this for their open bezel pendant making and river tables.

RESIN

DR. CRAFTY CLEAR EPOXY RESIN

UV resistant and easy to use resin that is great for beginners. Has a longer pot time of around 45 minutes.

PUDUO EPOXY RESIN

Small kit of faster curing resin. Typically cures in 8 hours and able to demold in 24 hours. Simple kit for small projects.

RESIN TOOLS

REUSABLE STIRRING STICKS

Perfect for stirring and mixing resin. Silicone material makes for easier clean up and less waste.

HEATING TOOL

Use a heat tool to carefully blow hot air on the surface of your resin to reduce and remove unsightly air bubbles.
